Volume 56 1975

Table of Contents

No. 1 pp. 1–318 issued on August 1, 1975
No. 2 pp. 319–622 issued on August 15, 1975

1 Evidence for Cooperative Effects in the Exchange Reaction Catalysed by the Oxoglutarate Translocator of Rat-Heart Mitochondria
F. E. Sluse, C. M. Sluse-Goffart, C. Duyckaerts, and C. Liébecq

15 Role of Ribosomal Protein S1 in Protein Synthesis: Effects of Its Addition to *Bacillus stearothermophilus* Cell-Free System
S. Isono and K. Isono

23 Nucleotide Sequences of *Escherichia coli* 16-S RNA Associated with Ribosomal Proteins S7, S9, S10, S14, and S19
A. Yuki and R. Brimacombe

35 Synthesis of Apamin, a Neurotoxic Peptide from Bee Venom
J. van Rietschoten, C. Granier, H. Rochat, S. Lissitzky, and F. Miranda

41 Cell-Wall Lipopolysaccharide from *Escherichia coli* B
P. Prehm, S. Stirm, B. Jann, and K. Jann

57 The Catalytic Activity and Penicillin Sensitivity in the Liquid and Frozen States of Membrane-Bound and Detergent-Solubilised Transpeptidase of *Streptomyces* R61
J. Dusart, A. Marquet, J.-M. Ghuysen, and H. R. Perkins

67 Hydrogen-Exchange Study of the Conformational Stability of Human Carbonic-Anhydrase B and Its Metallocomplexes
P. Závodszky, J. T. Johansen, and A. Hvidt

73 Occurrence and Properties of a Prostaglandin $F_{2\alpha}$ Receptor in Bovine Corpora Lutea
W. S. Powell, S. Hammarström, and B. Samuelsson

79 Temperature-Induced Transitions in the Conformation of Intermediates in the Hydrolytic Cycle of Myosin
J. G. Watterson, M. C. Schaub, R. Locher, S. Di Pierri, and M. Kutzer

91 Flavocytochrome b_2: Simulation Studies of the Electron-Transfer Reactions among the Prosthetic Groups
C. Capeillère-Blandin

103 Stimulation of Proteinase K Action by Denaturing Agents: Application to the Isolation of Nucleic Acids and the Degradation of 'Masked' Proteins
H. Hilz, U. Wiegers, and P. Adamietz

109 Study of Coenzyme Binding Site of Octopine Dehydrogenase Using Analogues of NAD^+
A. Olomucki, F. Thomé-Beau, J.-F. Biellmann, and G. Branlant

117 Rapidly Labelled RNA in *Tetrahymena pyriformis*
C. R. Pousada, L. Marcaud, M.-M. Portier, and D. H. Hayes

123 Activity of Polyribosomes from the Muscle of Normal and Distrophic Mice in Cell-Free Amino-Acid Incorporation
M. Nwagwu

129 The Modification of DNA-Dependent RNA Polymerase from *Escherichia coli* by an Alkylating Derivative of Rifamycin SV
W. Stender, A. A. Stütz, and K. H. Scheit

137 Purification of Arginases from Human-Leukemic Lymphocytes and Granulocytes: Study of Their Physicochemical and Kinetic Properties
C. Reyero and F. Dorner

149 Antibodies to Adenosine 5′-Monophosphate: Purification and Specificity
J.-L. Drocourt and M. Leng

157 Chlorinating Ability of Human Phagocytosing Leucocytes
J. M. Zgliczyński and T. Stelmaszyńska

163 A New Mode of Ring Cleavage of 2,3-Dihydroxybenzoic Acid in *Tecoma stans* (L.). Partial Purification and Properties of 2,3-Dihydroxybenzoate 2,3-Oxygenase
H. K. Sharma and C. S. Vaidyanathan

173 The Self-Association of Chicken-Erythrocyte Histones
J. H. Diggle, J. D. McVittie, and A. R. Peacocke

183 Synthesis of Mitochondrial Proteins in an *Escherichia coli* Cell-Free System Directed by Yeast Mitochondrial DNA
A. H. Scragg and D. Y. Thomas

193 Metabolism of Aromatic Compounds by Fungi. Kinetic Properties and Mechanism of 3-Carboxy-*cis*, *cis*-muconate Cyclase from *Aspergillus niger*
D. R. Thatcher and R. B. Cain

205 Enzymic Synthesis of an Aromatic Ring from Acetate Units. Partial Purification and Some Properties of Flavanone Synthase from Cell-Suspension Cultures of *Petroselinum hortense*
F. Kreuzaler and K. Hahlbrock

215 The Amino-Acid Sequence of the Most Acidic Major Parvalbumin from Frog Muscle
J.-P. Capony, J. Demaille, C. Pina, and J.-F. Pechère

229 Transport of Messenger RNA into Different Classes of Membrane-Associated Polyribosomes in Ehrlich-Ascites-Tumor Cells
W. J. van Venrooij, A. L. J. Gielkens, A. P. M. Janssen, and H. Bloemendal

239 Isolation and Identification of the Urinary Pigment Uroerythrin
J. Berüter, J.-P. Colombo, and U. P. Schlunegger

245 Prostaglandin 15-Hydroxy Dehydrogenase from Human Placenta
W. Schlegel and R. O. Greep

253 Isolation and Identification of 2-Deoxy-2,3-dehydro-*N*-Acetylneuraminic Acid from the Urine of a Patient with Sialuria
J. P. Kamerling, J. F. G. Vliegenthart, R. Schauer, G. Strecker, and J. Montreuil

259 Two-Dimensional Polyacrylamide-Gel Electrophoresis of the Proteins and Glycoproteins of the Human Erythrocyte Membrane
V. Anselstetter and H.-J. Horstmann

271 Proteolytic Enzymes of *Neurospora crassa*. Purification and Some Properties of Five Intracellular Proteinases
D. Siepen, P.-H. Yu, and M.-R. Kula

283 Inactivation of Rhodanese by Pyridoxal 5′-Phosphate
C. Cannella, L. Pecci, M. Costa, B. Pensa, and D. Cavallini

289 Ribonucleotide Reductase from *Escherichia coli:* Demonstration of a Highly Active Form of the Enzyme
S. Eriksson

295 Characterization of Oxytocin Receptors on Isolated Rat Fat Cells
D. Bonne and P. Cohen

305 Labile Sulfur in Human Superoxide Dismutase
L. Calabrese, G. Federici, W. H. Bannister, J. V. Bannister, G. Rotilio, and A. Finazzi-Agrò

311 Specific Determination of *N*-Acetyl-β-D-hexosaminidase Isozymes A and B by Radioimmunoassay and Radial Immunodiffusion
B. Geiger, R. Navon, Y. Ben-Yoseph, and R. Arnon

319 Epinephrine-Binding Plasma-Membrane Antigens in Rat Liver
F. Blomberg and K. Berzins

327 The Order of Cyanogen-Bromide Peptides and Location of Carbohydrate in the α2 Chain of Guinea-Pig Skin Collagen
C. C. Clark, P. P. Fietzek, and P. Bornstein

335 Quantitative Film Detection of ^{3}H and ^{14}C in Polyacrylamide Gels by Fluorography
R. A. Laskey and A. D. Mills

343 Metabolic Activities of Histones in Rat Liver and Spleen
Y. Ohba, K. Hayashi, Y. Nakagawa, and Z. Yamaguchi

353 Characterization of Three New Fucolipids from Hog Gastric Mucosa
B. L. Slomiany, A. Slomiany, and M. I. Horowitz

359 Malonyl and Palmityl Transferase-less Mutants of the Yeast Fatty-Acid-Synthetase Complex
A. Knobling, D. Schiffmann, H.-D. Sickinger, and E. Schweizer

369 Histidyl-tRNA Synthetase from *Salamonella typhimurium:* Specificity in the Binding of Histidine Analogues
G. C. Lepore, P. Di Natale, L. Guarini, and F. De Lorenzo

375 Glucagon and Insulin Control of Gluconeogenesis in the Perfused Isolated Rat Liver. Effects on Cellular Metabolite Distribution
R. Parrilla, I. Jimenez, and M. S. Ayuso-Parrilla

385 Studies on the Control of Development. Accumulation of Guanosine Tetraphosphate and Pentaphosphate in Response to Inhibition of Protein Synthesis in *Bacillus subtilis*
H.-J. Rhaese, H. Dichtelmüller, and R. Grade

393 Biosynthesis of Sterols by a Yeast Homogenate. Incorporation of Mevalonic Acid into Cholesta-5,7,24-trien-3β-ol and 5α-Cholesta-7,24-dien-3β-ol
J. P. Moreau, P. J. Ramm, and E. Caspi

403 Studies on the Fate of Homologous DNA Applied to Seedlings of *Matthiola incana*
V. Hemleben, N. Ermisch, D. Kimmich, B. Leber, and G. Peter

413 Influence of Potassium and Calcium Ions on the Phosphatidylinositol and Phosphatidylcholine Metabolism in Rat Fibroblasts after Growth Stimulation by Calf Serum
H.-J. Ristow, R. Hoffmann, H. Pachowsky, and W. Frank

421 Specific Enzymic Cleavage of Polypeptides at Cysteine Residues
S. Doonan and H. M. A. Fahmy

427 On the Biosynthesis of 5-Methoxybenzimidazole. Precursor-Function of 5-Hydroxybenzimidazole, Benzimidazole and Riboflavin
R. Wurm, R. Weyhenmeyer, and P. Renz

433 Carcinogen-Induced DNA Repair in Nucleotide-Permeable *Escherichia coli* Cells. Induction of DNA Repair by the Carcinogens Methyl and Ethyl Nitrosourea and Methyl Methanesulfonate
H. W. Thielmann, H.-P. Vosberg, and U. Reygers

449 The Primary Structure of a Major Polypeptide Component from the Venom of *Naja melanoleuca*
R. A. Shipolini, M. Kissonerghis, and B. E. C. Banks

455 Conformational Properties of Pig-Heart Cytoplasmic Aspartate Aminotransferase. Circular-Dichroism and Absorption-Spectroscopic Study of Dicarboxylate Binding
P. M. Bayley and H. E. Harris

467 Determination of the Complete Amino-Acid Sequence of Protein S4 from *Escherichia coli* Ribosomes
E. Schiltz and J. Reinbolt

483 Specificity of the Glutamine-Binding Site Involved in the Regulation of Glutamine-Synthetase Activity in Hepatoma Tissue-Culture Cells
A. Freikopf and R. G. Kulka

493 Circular-Dichroic Spectra of Vasopressin Analogues and Their Cyclic Fragments
I. Frič, M. Kodíček, M. Flegel, and M. Zaoral

503 Mouse Immunoglobulin Subclasses: Cyanogen Bromide Fragments and Partial Sequence of a γ1 Chain
K. Adetugbo, E. Poskus, J. Svasti, and C. Milstein

521 The Primary Structure of $tRNA_{11}^{Arg}$ from Brewers' Yeast. 1. Complete Digestions with Pancreatic and T_1 Ribonucleases
J. Weissenbach, R. Martin, and G. Dirheimer

527 The Primary Structure of $tRNA_{11}^{Arg}$ from Brewers' Yeast. 2. Partial Digestion with Ribonuclease T_1 and Derivation of the Complete Sequence
J. Weissenbach, R. Martin, and G. Dirheimer

533 Isolation and Properties of a Thymidylate-less Mutant in *Saccharomyces cerevisiae*
M. Luzzati

539 Maize α-Glucan Phosphorylase
B. Burr and O. E. Nelson

547 Effect of Myosin on Conformational Changes of F-Actin in Thin Filament *in vivo* Induced by Calcium Ions
T. Yanagida and F. Oosawa

557 $NAD(P)^+$ Analogues: Tools for the Investigation of the Active Site of Oestradiol 17β-Dehydrogenase from Human Placenta
J.-F. Biellmann and C. G. Hirth

563 Stabilization of Promoter Complexes with a Single Ribonucleoside Triphosphate
C. Nüsslein and H. Schaller

571 Intracellular Distribution of Neutral Proteinases and Inhibitors in Pig Leucocytes. Isolation of Two Inhibitors of Neutral Proteinases
M. Kopitar and D. Lebez

583 An Impaired Response of Adenylate Cyclase to Stimulation by Epinephrine in Adipocyte Plasma Membranes from Genetically Obese Mice *(ob/ob)*
M.-H. Laudat and J. Pairault

591 Action of Glycosyl Transferases upon "Bombay" (O_h) Erythrocytes. Conversion to Cells Showing Blood-Group H and A Specificities
H. Schenkel-Brunner, R. Prohaska, and H. Tuppy

595 Cortisol Binding and Tyrosine Transaminase Induction in Guinea-Pig Liver
S. S. Singer, J. Gebhart, and J. Krol

605 Quaternary Structure and Catalytic Functioning of L-Phenylalanine: tRNA Ligase of *Escherichia coli* K 10
T. Hanke, P. Bartmann, and E. Holler

617 Anti-Cooperative Binding of Two $tRNA^{Tyr}$ Molecules to Tyrosyl-tRNA Synthetase from *Escherichia coli*. Stopped-Flow Investigations Using Unmodified $tRNA^{Tyr}$ and a Fluorescent Derivative of $tRNA^{Tyr}$
A. Pingoud, D. Boehme, D. Riesner, R. Kownatzki, and G. Maass
